

MOBILE BAR GUIDE 2024

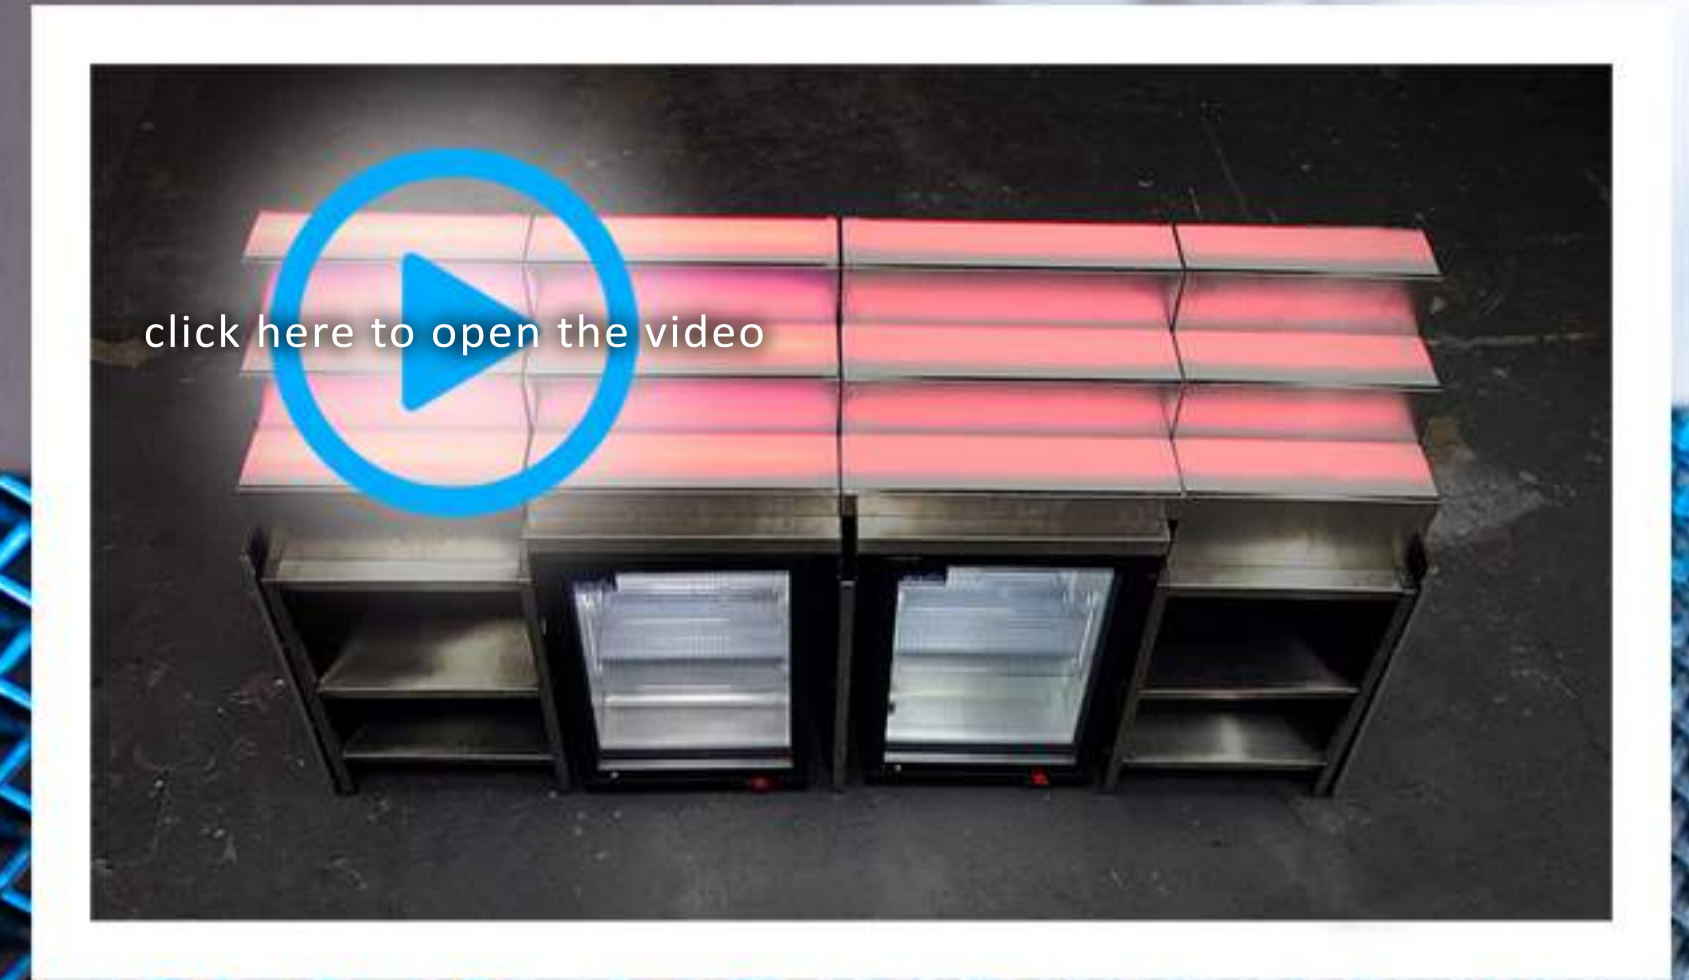

Introduction

We offer more than 1000 metres (3300 ft.) of Mobile Cocktail Bars, which can be small enough for an intimate or boutique event or, fully assembled, can cater for large scale festivals.

Rhino Bars were designed by professionals, who work in the industry to maximise the utility. This enables the bartenders to focus mainly on their performance.

Bars can be assembled into any shape to fit any space. For overall impression we can provide various designs of the front panels, or you can simply create your own.

Each Bar has independent supply of water and power, which may also run LED lights along the bar.
